

Don't Replace it,
Rebuild it.

Project: Hydropower Penstock Recoating

Year Completed: 2021

CTI can provide a variety of services when it comes to surface preparation and coating applications. For this project the customer required CTI to apply a coating that would provide UV and Corrosion protection while enduring the extreme environmental conditions.

Prior to performing the coating CTI needed to ensure a clean and smooth surface. For this particular project CTI utilized ROTO Pen DECO Tool and Needle Guns on a 11' Diameter Penstock Pipeline to produce a SSPC 2/3 Surface Profile.

The CTI team coated the Penstock with a 3 Coat System that will provide UV and Corrosion protection to withstand the extreme environmental conditions.

CTI is capable of performing a wide variety of work that includes large-scale industrial services, painting and coating, infrastructure repair, specialty construction, custom solutions, fabrication, and project management.

CTI has the knowledge and expertise to find solutions for a wide array of customer needs – Give us a call today!
